Category: Not for Profit Associated Incorporation

About Us:

Mid North Coast Organics Inc was established five years ago with the help of The Regional Development Board and what was called Dept .of State and Regional Development now called Industry and Investment. Our organisation is a not for profit association run by a volunteer group of eight organic farmers.

The association was formed to support commercial certified Organic and Biodynamic farmers on the Mid North Coast of New South Wales by assisting them to learn methods to improve their farming activities, share information and experiences and network with like minded farmers.

The association runs field days on many and varied topics up and down the region of the Mid North Coast at certified Organic or Biodynamic farms. The association also produces a quarterly newsletter to keep farmers informed regarding coming events, information regarding past field days and other relevant information. If you wish to view our site please go to www.midnorthcoastorganics.org.au
