In the event of this Rescission Motion being successful we intend to move the following;

Notes

- 1. Footpaths and cycleways are an asset used by the whole community.

We feel that it is an unfair charge that only the residents with property adjoining the footpaths are charged 25% of costs of construction.

- 2. It would be a much fairer system if Council paid 50% of costs with the other 50% coming from section 94 funds where applicable.

This is a win / win situation because as it stands now Council pays 75% and property owners pay 25% under this system council pays only 50% and adjoining property owners pay nothing.
