Supply Chain Support grants

Eligible farmers can now apply for Supply Chain Support grants of between \$30,000 and \$100,000 to assist with storm and flood recovery tasks such as repairing damaged infrastructure, replacing lost livestock, and accessing vet or pest management advice.

Learn more or apply [here](#)

Increase in harvestable rights for landholders in coastal-draining catchments

From early 2022, landholders in coastal-draining catchments of NSW will be able to capture up to 30% of the average regional rainwater runoff from their property in harvestable right dams built on non-permanent minor streams, hillsides and gullies, with the remaining run-off flowing into licensed dams and the local river systems, where it is shared among all water users and the environment.

Join the NSW Government Buy Regional Campaign

We already have quite a few local businesses listed here! And the platform is growing daily. Simply link your listing to your e-commerce site and you are off.

To register your business visit [Buy Regional - Information for businesses | NSW Government](#)

Indian Mynas

Having problems with Indian Mynas but don't know who to contact? North Coast Local Land Services can put you in touch with an Indian Myna Control Program in your area.

Call your nearest LLS office on 1300 795 299, or visit <https://cvcia.com.au/common-mynas> for more info

Strengthening Business Service

The Strengthening Business Service is a free service to assist bushfire affected businesses to recover, grow and become more resilient, recognising that many businesses have also been devastated by COVID and the recent flood event. Businesses should be eligible for this service if they were engaged in business with an ABN during the bushfires (1 Aug 19 – 29 Feb 20) and were impacted either directly or indirectly by

the fires. If eligible, a Strengthening Business facilitator will work with you to create and help implement a roadmap for your business going forward.

The Strengthening Business Application is done [online](#).

Ignite Mid North Coast 2021, will be held online (via) Wingham.

The event brings together leaders in business, community and government who live and work in the beautiful Mid North Coast for 6 days of speakers, panels, workshops and exhibitions around three sub-themes of housing, circular economy and business preparedness.

New Producers Guide

Are you a new horticulture producer looking to establish a business in the North Coast? Did you know that North Coast Local Land Services have created a fact sheet with information relevant to you?

Find out more [here](#)

Innovate with nbn™ Grants

Following the success of the inaugural Innovate with nbn™ Grants program last year, nbn™ are offering another \$95,000 in funding to support regional and remote businesses drive the development and adoption of their ideas.

There are seven categories available to apply in, with nbn™ looking for businesses that are harnessing the benefits of the nbn™ network to develop products or solutions that improve digital participation, productivity or social outcomes for regional and remote Australians.

Ins & Outs of Water Recycling in Protected Cropping

[NSW Department of Primary Industries](#) invites you to this webinar on the 'Ins & Outs of Water Recycling in Protected Cropping'.

The webinar will present a practical, experience-based guide to safely capturing and recycling nutrient rich runoff from a protected cropping system.

Register here: <https://register.gotowebinar.com/register/293800920212510736>

Fall Armyworm

Producers across NSW are being encouraged to regular monitor their crops, particularly maize and sorghum, for signs of fall armyworm.

Last season fall armyworm was found in all key summer cropping regions across the state and just this month there was a new detection at Croppa Creek in north west NSW.

Early signs of fall armyworm include crop damage, such as windowing and shot holes in leaves. If you think you've found the signs of fall armyworm, email images with your name, location, crop type and phone number to fallarmyworm@dpi.nsw.gov.au.

For more information on how to identify and control fall armyworm, visit <https://bit.ly/354gGiN>
